

SPECIAL FINANCING PROGRAMS

Peachtree Residential has teamed with several preferred mortgage lenders to provide below market interest rates on new contracts written between September 27 and November 30, 2022.*

Our special rate lock buydowns mean home shoppers can purchase more home for their money. Most homebuyers will save hundreds to many hundreds of dollars a month on a 30-year fixed mortgage.

All active Peachtree Residential communities in metro Atlanta and Charlotte, North Carolina are eligible. And both presales and quick move in homes are included. Best of all, this program is at no cost to the consumer.

Buydown programs reduce the costs associated with mortgage interest for homebuyers. Programs can vary, but in this instance Peachtree and its lenders are offering \$12,000 toward interest rate buydown programs, plus \$3,000 towards closing costs depending on loan type and which preferred lender is utilized for the loan.

We are taking the stress away on presale purchases with long term rate locks. Even if the supply chain slows, our buyers are covered.

Peachtree Residential is providing buy downs on both conventional 30-year mortgages and jumbo loans. This means almost all buyers will be covered by a program that suits their individual needs.

Additionally, Peachtree is offering an extended rate lock program that allows buyers to lock a rate for 1 to 2- years.** And, if for any reason the home is not ready to close by that date, the rate can be extended with no penalties.

Offering a variety of traditional and farmhouse home plans that meet the needs of today's buyers, Peachtree Residential builds quality homes with meticulous craftsmanship, custom designs, and thoughtful touches that add to homeowners' quality of life.
